AHMAD HASSAN

Full-Stack Web Developer & Automation Specialist | Next.js, React, Python

Email: ahmad.hassan.dev@gmail.com | GitHub: github.com/Ahmad-Haassan | Worldwide Remote

PROFESSIONAL SUMMARY

High-performing Computer Science developer focused on engineering fast, scalable web applications with Next.js (App Router), React 19, TypeScript, and Tailwind CSS. Experienced in building automated data workflows, API integrations, and Python scraping bots that save businesses hours of manual operation. Proven track record of delivering clean, maintainable architecture with 95+ Google Lighthouse speed scores.

CORE TECHNICAL COMPETENCIES

Frontend Frameworks:	Next.js 15/16, React 19, TypeScript, JavaScript (ES6+), HTML5, CSS3
Styling & UI:	Tailwind CSS v4, Motion (Framer Motion), Responsive Design, Dark Mode UI
Backend & Automation:	Node.js, Express, Python (Web Scraping, Automation Scripts), REST APIs
Databases & DevOps:	Supabase, Firebase, Git, GitHub Actions, Vercel Deployment, Linux

FEATURED PROJECTS & CLIENT DELIVERABLES

ShopLens — E-Commerce Research & Price Comparison Engine

Next.js, TypeScript, Python Web Scraper, Tailwind CSS

- Architected a centralized product intelligence dashboard normalizing pricing data across major online retailers.
- Implemented automated web data extraction scripts and sentiment analysis for customer reviews.
- Achieved instantaneous search filtering and responsive cross-device layout with near-zero latency.

High-Performance Developer Digital Command Center

Next.js 16 (Turbopack), React 19, TypeScript, Framer Motion, Vercel

- Built an interactive cyberpunk-themed developer showcase featuring command palette (Cmd+K) and real telemetry.
- Maintained 100% responsive design with sub-second page loads and modular component architecture.

WhatsApp Business Automation & Webhook Dispatcher

Python, Node.js, Webhooks, RESTful APIs

- Designed an automated webhook receiver routing incoming inquiries to specialized conversational workflows.
- Reduced manual inquiry processing times with automated replies and business rule dispatching.

EDUCATION & FOUNDATIONS

Bachelor of Science in Computer Science (BSCS) — Undergraduate

Core Focus: Data Structures & Algorithms, Object-Oriented Software Design, Operating Systems, Computer Networks.
